

NEWSLETTER FROM THE CRT - DECEMBER 2009

2010: a conference year for the CRT

22 April the CRT will be hosting a conference together with Gothenburg University, Nordregio from Stockholm and Aalborg University where joint research will be presented. 20 - 21 May the CRT will invite 50 Danish researchers from the European Regional Science Association (ERSA) to Bornholm. Finally 23-26 August we host a major international conference for island experts. Around 250 people are expected to guest Bornholm to discuss island development. Keep an eye on our website for further information on these events.

CRT now has an embassy in Copenhagen

The CRT has rented new office facilities in Copenhagen. They have a very convenient location in the Copenhagen Botanical Gardens making meeting activities in the capital easier in the future. The premises also house the two CRT-employees who mainly live and work in Copenhagen. The address is Øster Voldgade 3, 1353 Copenhagen K.

CRT's Master's degree programme is ready for export

The Master's Degree Programme: Experience Management in Peripheral Areas (Molly) will now be offered in other peripheral areas in Denmark. Thy in Northern Jutland will be the first step to develop the Master's programme as a national programme. The current students on Bornholm will be given the opportunity to finish their education at the CRT.

Financing in peripheral areas

The Region of Southern Denmark has contracted the CRT to analyse whether firms in the region's peripheral areas have worse financial terms than businesses in other areas of the region.

New colleague

In October 2009 the CRT welcomed Birgit M. Jacobsen as responsible for administrative financial management, accounting and administrative project management. Birgit comes from a similar position at the Glass and Ceramics School on Bornholm. Welcome to the CRT!
